**In 2024, Diono is launching four revolutionary 3-across car seats.**

Every once in a while, a product comes along that changes an industry, and invents a new product category. Diono has done this twice!

When Diono launched Radian in 2004 the 3-across all-in-one convertible car seat was born, and at its heart was our engineered steel core.

# Why Connect3®?

What problems do parents have with Boosters today?

"They are all too big, they don't fit!"

"The seat is too flimsy, and it might deflate!"

"I can't reach the buckle!"

"I want my family and friends to travel safely, every journey!"

**In 2024, Diono reinvents belt positioning boosters with 4 revolutionary 3-across belt positioning boosters**
